The Perils Of Pauline

The Perils of Pauline is one of the first damsel in distress serials.

The story is complete with undaunted hero, courageous damsel, unscrupulous villains galore, and other worldly interest. Before getting married, Pauline wants to experience the world and have adventures. When her guardian dies and leaves her an estate in trust of his secretary, adventures suddenly become more hazardous. Pauline charts aeroplanes, meets untrustworthy pirates, braves dangerous China Town, flies in a hot air balloon, adventures in the Wild West, encounters international spies, and escapes many other perils with the aid of her would-be fiance, Harry, and an Egyptian mummy. (Summary by Carolyn Frances)
